Digital Training Partner Programme

If you are delivering workshops and face to face training, you may be considering developing online learning courses, but are unsure how to progress. How should you develop these courses, how do you manage courses and learners and what are the best tools for delivery?

You need a partner you can trust, who really understands online learning, who can provide a platform that lets you manage learners and courses and makes all of this simple so that you can focus on growing your business.

ADAPT TO CHANGE

Adapt to the changing nature of training with innovation and creativity to satisfy today's learners.

MULTI-DIMENSIONAL

We help you extend your business from a single-dimension to a multi-dimensional delivery capability.

MAPS FRAMEWORK

The MAPS framework provides all the elements needed to become a true blended learning provider.

MAPS Framework

The MAPS framework has 4 main components to provide you with the right mix of capabilities to help you develop your online learning delivery quickly and simply. You can start small and continue to build your capabilities - your training - your way.

Modules & Content

- Pre-built Business Essentials Catalogue
- Bespoke content creation
- Video production - filmed & animated
- Job aid creation
- Workbooks

Platforms & Technology

- LMS Platform
- Online Assessment Platform supporting recruitment
- Cloud Based Platform for invigilated assessment

Amends & Transforms

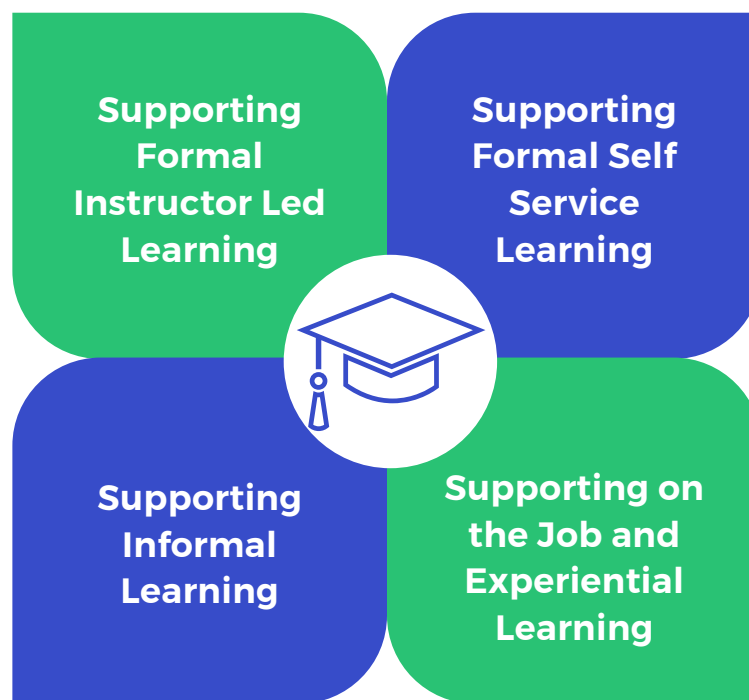

- SCORM conversion for existing PPT training decks
- Legacy training refresh
- Interactive video for existing video training
- PowerPoint rework
- Design

Support & Training

- Training & consultancy to support online delivery
- Design support, such as checklists, posters, workbooks
- Instructional Design for effective learning outcomes

We help you:

- Deliver a true blended approach to your training
- Implement the infrastructure to enable effective training in the workplace.
- Remove the worry and hassle of trying to develop a online course delivery yourself
 - We host the platform and your content and learners
 - We enhance your delivery with online content, interactive videos or assessments

Delivering online learning will help extend your business:

- Through new revenue streams
- By scaling your delivery – both nationally and internationally
- By differentiating yourself from the competition
- By demonstrating training compliance via the LMS platform reports
- By demonstrating that you support a variety of learning methods

Providing Effective Support

Supporting a range of organisations & individuals:

No matter the type of business, the MAPS framework will support your move to a true blended delivery:

- Training companies
- Apprenticeship providers
- Individual trainers
- First time trainers looking to expand online
- Those setting up new training organisations
- Recruitment organisations
- HR Service organisations

Why eLearning Plus

- We fully support a blended learning approach – see the BLISS framework on our site
- We have both the platform and content delivery capability
